

Amateur Radio Club Organizes

Constitution and Business Talked

The newly organized Hancock Amateur Radio Club was called to order by its president, Howard Grubbs, W9DZC for its regular meeting Monday night, April 13th at the Hoosier Soft Water Company building at 25 E. Pierson street, in Greenfield with a good crowd in attendance.

Among the visitors present were Cliff Singer, W9SWD, the assistant director of the Central Division of the American Radio Relay League and Dean Townsend, K9JGJ, president of the Western Electric Amateur Radio Club.

Since the club was just recently organized, this meeting was mostly taken up by the reading of the constitution and other pressing business.

The next scheduled meeting is for Monday night, May 11, at the same location and at this meeting it is planned to have a talk on the DX operation of an amateur radio station by Harry Franke, W9 YSQ and his son, Manford, W9YSX of New Palestine. Harry and Manford are rivals in this work and there is promise of a very interesting program.

The club membership is open to all persons interested in amateur radio and your attendance is needed to boost the club's prestige in the community.
