

ARES REPORT INDIANA SECTION

JULY 2025

The Indiana Section Amateur Radio Emergency Service (ARES®) continues to do great things around the state because of the work of ARES® volunteers in each county.

We need to continue to do these great things, and just as important, is letting all of our partners know what we are doing and how we can help.

We tend to get wrapped up with thinking about how and what we do from a technical point of view. We are thinking about better radios, better antennas, and how the propagation is on the bands. Sometimes it is digital verse analog or data verses voice/phone.

Have you ever thought about how to “communicate”? How we communicate the - what, when, where and how, with our partners, the public, or others that we might work with?

We know what we can do with our radios and our talents. Individually we might have technical limitations based on our equipment or our skill set, but do we have what is needed to support our community and our partners? Do you know what they need? Do they know what you can do?

Over the years of working with emergency management and preparedness groups at all levels from individual small facilities to FEMA, it is common to hear that communication is the number one failure identified. This failure is rarely related to having enough or the right equipment or technical capabilities. But they continue to develop and purchase new equipment.

This year I have decided that the Indiana Section Emergency Test (SET) exercise will be focused on cooperation and collaboration. I don't care if you need to use a beam, a vertical or a wire, if it was by simplex or duplex, digital or analog. The focus is on sharing the information. Do you have the information that you need and are you providing the information that someone else needs or is asking for?

Emergency Coordinators (EC) and District Emergency Coordinators (DEC) in the Indiana Section have already received a basic exercise plan and will be receiving additional details soon. For those critical of the exercise planning, I acknowledge that this does not follow HSEEP standards, but perhaps in the future we may get to that standard.

ARES leadership at all levels need to keep your partners informed about who we are, what we do and most importantly work towards a collaborative and cooperative relationship at all levels.

4-Weekly ARES Nets on Monday

1-SKYWARN Net

1-Monthly Warning Siren Test Net to assist the Monroe County Emergency Management Agency

We also do a Wednesday Night Welcome Net - To Welcome Newly Licensed Amateur Radio Operators. Elmers and all hams are welcome to attend the net. We ask a question of the night, and also answer other questions.

Since we do not have the linked repeater system at this time. We work with Ken Bandy, KJ9B of the Indianapolis Radio Club, and simultaneously conduct the net on their repeater.

The net is overseen by Russ Ryle, N9DHX, Jimmy Merry, KC9RPX, and Ken Bandy, KJ9B. We have conducted this net for about 4.5 years with an average of 20 - 25 check-ins between Bloomington, IN and Indianapolis, IN repeaters

Welcome Net in Non-ARES, but we sometimes discuss ARES to get the Newly Licensed hams interested.

We also conduct a weekly ARES Simplex Net, and Thursday Night net for Monroe and area counties

MORGAN-----

SCOTT COUNTY-----
In July, there were 5 scheduled ARES nets conducted on the Scott County EMA repeater (146.610) with 48 check-ins and a total of 88 minutes providing operators an opportunity to check and test their equipment.

SPENCER CO.-----
3 ANALOG AND 3 DIGITAL NETS

ST JOSEPH COUNTY-----
Held our first weekly net on Thursday, July 31 at 19:00 hrs. Had 4 ARES members and 1 visitor.

STARKE COUNTY-----
NOTHING TO REPORT

STEUBEN COUNTY-----
The our repeater still out of operation (final repairs expected to complete in August) we continue to work on nets and message handing without a repeater. NVIS HF can meet many needs, but it not a good solution during thunderstorm activity, as would be the case for a SKYWARN activation. We experimented with a crossband repeater solution, but the operator's proximity to the local airport prohibited getting antennas high enough to traverse the county.

SULLIVAN-----
SEC reporting for SEC reporting for Sullivan County vacant EC position.
District 7 DEC position vacant also.

TIPPECANOE-----

Four TC ARES Nets took place on July 7th, 14th, 21st, and 28th and WIRES/WI9RES 145.370 repeater, PL 131.8. ARRL / ARRL ARES / IN ARRL events, news and others were relayed to the participants. Announcement of Septembers preparedness month as well as Octobers SET activities are being mentioned on the NET.

Activity Details:

The our repeater still out of operation (final repairs expected to complete in August) we continue to work on nets and message handing without a repeater. NVIS HF can meet many needs, but it not a good solution during thunderstorm activity, as would be the case for a SKYWARN activation. We experimented with a crossband repeater solution, but the operator's proximity to the local airport prohibited getting antennas high enough to traverse the county.

Administrative and Other Comments:

Our local repeater is down. We believe it will be operational again in August. This is causing us defer some activities, but is also forcing us to explore simplex-across-the-county protocols.

The Extreme Heat Index on 7/24 in our area caused us to defer an outdoor exercise.

4-Weekly ARES Nets on Monday

1-SKYWARN Net

1-Monthly Warning Siren Test Net to assist the Monroe County Emergency Management Agency

We also do a Wednesday Night Welcome Net - To Welcome Newly Licensed Amateur Radio Operators. Elmers and all hams are welcome to attend the net. We ask a question of the night, and also answer other questions.

Since we do not have the linked repeater system at this time. We work with Ken Bandy, KJ9B of the Indianapolis Radio Club, and simultaneously conduct the net on their repeater.

The net is overseen by Russ Ryle, N9DHX, Jimmy Merry, KC9RPX, and Ken Bandy, KJ9B. We have conducted this net for about 4.5 years with an average of 20 - 25 check-ins between Bloomington, IN and Indianapolis, IN repeaters

Welcome Net in Non-ARES, but we sometimes discuss ARES to get the Newly Licensed hams interested.

We also conduct a weekly ARES Simplex Net, and Thursday Night net for Monroe and area counties

Administrative and Other Comments:

1 - Skywarn event July 17 for 2 hours,

Assisted Monroe Co EMA office monitor the Warning siren on July 11 and 25

Wide ARES Simplex test, scenario the repeater offline due to power outage in area

Mutual Aid for Owen County relay messages of Flooding report by K9MRV Marvin Campbell
